CAREER OBJECTIVE

Aspiring Software Engineer with strong programming skills in C++, Java, and Python, along with a solid understanding of AI/ML concepts. Seeking a full-time opportunity to apply problem-solving abilities, contribute to innovative software solutions, and gain hands-on experience in Software Development and emerging technologies.

EDUCATION

Ashoka Women's Engineering College, Kurnool	2023 – 2027
• B.Tech in Computer Science and Engineering	Percentage: 86%
Sri Gayatri Junior College, Anantapur	2021 – 2023
• AP Board of Intermediate in MPC	Percentage: 97.6%
Sri Chaithanya School, Pamidi	2021
• AP Board of Secondary Education	Percentage: 100%

TECHNICAL SKILLS

Programming Languages: Java, C++, Python, C

Web Technologies: HTML, CSS, JavaScript, React

Database Systems: SQL

Core Concepts: Data Structures & Algorithms, OOP, Problem Solving

PROJECTS

CreditPath AI – Loan Default Prediction & Recommendation System	(completed)	Feb 2026
--	-------------	----------

Technologies: Python, FastAPI, React, LightGBM, Plotly

- Built full-stack ML application with FastAPI REST backend and React frontend, serving loan default risk predictions for 500+ applicant profiles.
- Developed LightGBM model achieving 92% accuracy on historical financial datasets; integrated interactive Plotly dashboards for banks and applicants.
- Demonstrated REST API development and integration skills directly applicable to automation and integration technology workflows.

Stock Market Trend Predictor	(ongoing)	Mar 2026
-------------------------------------	-----------	----------

Technologies: Python, HTML, CSS, JavaScript, SQL

- Built ML model to predict stock trends using Yahoo Finance API; processed 10,000+ data points with Pandas and visualized insights using Matplotlib.
- Developed web interface in HTML, CSS, JavaScript; used SQL for structured data storage and retrieval.

INTERNSHIP

Artificial Intelligence Intern	Infosys Springboard (Feb 2026 – Apr 2026)
---------------------------------------	---

- Implemented AI/ML concepts including neural networks and predictive modeling on real-world datasets; completed 2-month program with strong performance.

- Built and evaluated end-to-end ML pipelines; applied knowledge to practical AI solutions under industry mentorship.
- Strengthened skills in automation, model training, evaluation, and deployment in a professional environment.

CERTIFICATIONS & ACHIEVEMENTS

- AI Skills Passport – Ernst & Young (EY), 2025
- Generative AI Unleashing – Infosys Springboard
- Introduction to Artificial Intelligence – IBM SkillsBuild
- Solved 100+ problems in leetcode using C++ and Java

TRAINING

Smart Interviews – Data Structures & Algorithms Program

- Practiced **Data Structures and Algorithms (DSA)** including **Arrays, Trees, Graphs, and Dynamic Programming** by solving **100+ programming problems in Java and C++**.

AREAS OF INTEREST

- **Machine Learning & Artificial Intelligence**
- **Full Stack Web Development**
- **Data Analytics & Visualization**

HOBBIES

- Competitive Programming
- Watching Podcasts

LANGUAGES KNOWN

- Telugu (Native)
- English (Professional Proficiency)
